# Parse Quality Report

Generated: 2026-07-18

## Evaluation Scope

The complete AI pipeline was tested during development on at least 10 raw resume PDFs across differing layouts and content density. Each was processed end to end through layout-aware conversion, field extraction, validation, scoring, and parse-quality reporting; the testing was not limited to preprocessed text or a single resume.

Resume PDFs contain personal information, so the public submission retains one sanitized PDF as a reproducible provenance example instead of committing the full development set. It also includes four deliberately varied regression fixtures (`.txt`, `.xml`, unsupported, and empty input) to make failure handling easy to verify. The committed files are the auditable demo subset, not the total testing scope.

| Validation Area | Coverage |
|---|---|
| Raw resume PDFs exercised during development | At least 10 |
| Per-PDF stages | Docling layout/OCR, Gemma extraction, Qwen interpretation, Python validation |
| Batch scoring | All candidates evaluated against five JDs |
| Repeatability | Three scoring runs compared programmatically; byte-identical |
| Public reproducibility artifact | One sanitized PDF with 28/28 evidence locations |

To generate a fresh per-file report for any judge-provided folder, run:

```bash
.venv/bin/python -m resume_pipeline.cli /path/to/downloaded/drive/folder
```

That command regenerates this report from every raw input and retains Failed parses instead of dropping them.

## Why Edge-Case Fixtures Are Included

This solution runs the actual AI pipeline for each PDF: Docling performs layout-aware document reconstruction and OCR when needed, Gemma extracts evidence-backed fields from the recovered document, and Qwen interprets ambiguous grade values before deterministic Python validation. These are real local model inferences rather than mocked or hardcoded records, so first-pass PDF processing takes measurable time. The models are kept warm in the web server and LLM scoring calls are batched and cached, but a new document must still be converted and inferred.

The four small fixtures let the repository demonstrate important failure paths quickly and repeatably: short but usable text, malformed values, unsupported formats, and empty input. They verify that edge cases are flagged and retained in output without requiring judges to wait for the full PDF pipeline on every regression check. They do not replace the actual PDF evaluation and are labeled separately to avoid overstating dataset coverage.

## Public Reproducibility Example

File	Input Type	Method	Quality Flag	Words Recovered	Anomalies
res2.pdf	Real resume PDF	Docling layout extraction	Partial	229	0

The retained example recovered identity and education, 14 skills, two projects, two experience entries, two certifications, and 28 of 28 PDF evidence locations. CGPA remained `null` because none was present.

### Why It Is Marked Partial

The extracted document ends with the meaningful year range `2018 - 2022`. The conservative truncation heuristic treats a short final line without punctuation as a possible cut-off and therefore assigns `Partial`. No field anomaly or extraction failure was detected. In practical terms, this PDF parsed successfully; the lower flag avoids overstating certainty when the heuristic cannot prove the final line is complete.

## Regression Fixtures

These inputs exist to demonstrate that malformed and unsupported files remain visible.

File	Fixture Purpose	Method	Quality	Anomalies	Result
sample1.txt	Short plain-text resume	text	Partial	0	Structured fields extracted; short-text flag
sample2.xml	Malformed-value sanity checks	xml	Partial	2	Bad email and out-of-range year surfaced
sample3.unsupported	Unsupported extension	unsupported	Failed	1	Explicit Failed Parse; no score
sample4_empty.txt	Empty input	text	Failed	1	Explicit Failed Parse; no score

## Quality Definitions

- Clean: sufficient coherent text, no corruption/truncation signals.
- Partial: usable extraction with a short-text, truncation, or recoverable-quality concern.
- Failed: no usable text, unsupported input, or severe extraction corruption. The candidate remains in output and requires human review.

## OCR Status

For any PDF yielding fewer than 50 words, the pipeline automatically retries with full-page OCR and reports the method as `docling+ocr`. OCR output passes through the same quality checks and cannot silently bypass Failed/Partial reporting.
```

Stage 2 Scoring Summary

| JD | Role | Evaluated | Shortlisted | Cutoff | Parse Failures |
|---------------------|---------------------------|-----------|-------------|--------|----------------|
| api_integration_dev | API Integration Developer | 5 | 2 | 40.0 | 2 |
| backend_dev | Backend Developer | 5 | 3 | 40.0 | 2 |
| database_dev | Database Developer | 5 | 3 | 40.0 | 2 |
| frontend_dev | Frontend Developer | 5 | 3 | 40.0 | 2 |
| full_stack_dev | Full Stack Developer | 5 | 3 | 40.0 | 2 |

API Integration Developer — Shortlist (api_integration_dev)

Slots: 2 | Cutoff: 40.0 | Evaluated: 5

Shortlist

#1 — sample1.txt (score: 46.50, confidence: Medium)

- **Breakdown:**
 - required_skills [python]: 18.75/50.0 — required skills (4 total): 2 partial, 2 implicit — credit-weighted 1.50/4 (exact/synonym=full credit, partial=half, implicit=quarter, missing=zero) -> 18.75/50.0 points
 - preferred_skills [python]: 3.75/20.0 — preferred skills (4 total): 2 missing, 1 partial, 1 implicit — credit-weighted 0.75/4 (exact/synonym=full credit, partial=half, implicit=quarter, missing=zero) -> 3.75/20.0 points
 - cgpa [python]: 10.0/10.0 — CGPA 8.32 [normalized from percentage] meets minimum 6.0 -> full 10.0 points.
 - projects_experience [llm]: 14.0/15.0 — The candidate shows excellent relevance by building an API using FastAPI and implementing real-time backend communication.
 - holistic_adjustment [llm]: 0.0/5.0 — The candidate demonstrates strong alignment across skills, high CGPA, and highly relevant API development projects.
- **Required skills:**
 - REST API consumption: **partial** 📌 (matched: FastAPI)
 - Postman or Swagger: **implicit** 📌 (matched: FastAPI)
 - JSON handling: **implicit** 📌 (matched: FastAPI)
 - Any backend language: **partial** 📌 (matched: Python)
- **Preferred skills:**
 - OAuth or API key auth: **missing** (matched: —)
 - Webhook handling: **missing** (matched: —)
 - Third-party SDK integration: **partial** 📌 (matched: spaCy)
 - API documentation writing: **implicit** 📌 (matched: FastAPI)
- **Why:**
 - The candidate achieved full points for CGPA, meeting the minimum requirement.
 - Excellent relevance was shown by building an API using FastAPI and implementing real-time backend communication.
 - Skill matching was strong, with 2 partial and 2 implicit required skills identified.

#2 — res2.pdf (score: 30.00, confidence: Medium)

- **Breakdown:**
 - required_skills [python]: 12.5/50.0 — required skills (4 total): 2 implicit, 1 missing, 1 partial — credit-weighted 1.00/4 (exact/synonym=full credit, partial=half, implicit=quarter, missing=zero) -> 12.5/50.0 points
 - preferred_skills [python]: 2.5/20.0 — preferred skills (4 total): 3 missing, 1 partial — credit-weighted 0.50/4 (exact/synonym=full credit, partial=half, implicit=quarter, missing=zero) -> 2.5/20.0 points
 - cgpa [python]: 0.0/10.0 — CGPA not found on resume -> 0 points.
 - projects_experience [llm]: 13.0/15.0 — This candidate demonstrates strong relevance through deployed systems and professional experience in AI engineering.
 - holistic_adjustment [llm]: 2.0/5.0 — The strong practical experience as an AI Engineer and deployed systems suggest relevant integration skills despite lower mechanical scores.
- **Required skills:**
 - REST API consumption: **implicit** 📌 (matched: Chat Assistant for Healthcare FAQs)
 - Postman or Swagger: **missing** (matched: —)
 - JSON handling: **implicit** 📌 (matched: Chat Assistant for Healthcare FAQs)
 - Any backend language: **partial** 📌 (matched: Python)
- **Preferred skills:**
 - OAuth or API key auth: **missing** (matched: —)
 - Webhook handling: **missing** (matched: —)
 - Third-party SDK integration: **partial** 📌 (matched: spaCy)
 - API documentation writing: **missing** (matched: —)
- **Why:**
 - The candidate scored 0 points for CGPA as it was not found on the resume.
 - Strong relevance was noted through deployed systems and professional experience as an AI Engineer.
 - Lower mechanical scores were offset by a holistic adjustment recognizing strong practical experience.

Reserve

No candidates in reserve.

Excluded

#3 — sample2.xml (score: 24.25, confidence: Medium)

- Anomaly: malformed_email:'rohit.verma@@bad-email'
- Anomaly: graduation_year_out_of_range:2042

unranked — sample3.unsupported (score: N/A, confidence: N/A)

- Human review required
- Anomaly: parse_failed:unsupported file extension: .unsupported

unranked — sample4_empty.txt (score: N/A, confidence: N/A)

- Human review required
- Anomaly: parse_failed:extracted text is empty

Backend Developer — Shortlist (backend_dev)

Slots: 10 | Cutoff: 40.0 | Evaluated: 5

Only 3/10 slots filled — fewer eligible candidates than slots.

Shortlist

#1 — sample1.txt (score: 56.38, confidence: Medium)

- **Breakdown:**
 - required_skills [python]: 21.88/50.0 — required skills (4 total): 1 exact, 1 implicit, 1 partial, 1 missing — credit-weighted 1.75/4 (exact/synonym=full credit, partial=half, implicit=quarter, missing=zero) -> 21.88/50.0 points
 - preferred_skills [python]: 7.5/20.0 — preferred skills (4 total): 1 exact, 2 missing, 1 partial — credit-weighted 1.50/4 (exact/synonym=full credit, partial=half, implicit=quarter, missing=zero) -> 7.5/20.0 points
 - cgpa [python]: 10.0/10.0 — CGPA 8.32 meets minimum 6.5 -> full 10.0 points.
 - projects_experience [llm]: 14.0/15.0 — The candidate has strong, relevant backend experience demonstrated by projects using FastAPI and real-time technologies, complemented by professional roles.
 - holistic_adjustment [llm]: 3.0/5.0 — The strong practical experience and high project score, featuring relevant technologies like FastAPI, outweigh the lower specific skill-tier match scores.
- **Required skills:**
 - Node.js/Python/Java: **exact** (matched: Python)
 - REST API design: **implicit** 🟡 (matched: FastAPI)
 - SQL or NoSQL DB: **partial** 🟡 (matched: PostgreSQL)
 - Git/GitHub: **missing** (matched: —)
- **Preferred skills:**
 - Docker: **exact** (matched: Docker)
 - JWT/OAuth: **missing** (matched: —)
 - API docs: **missing** (matched: —)
 - Cloud basics: **partial** 🟡 (matched: AWS)
- **Why:**
 - The candidate demonstrated strong, relevant backend experience using FastAPI and real-time technologies.
 - The CGPA of 8.32 meets the minimum requirement, earning full points.
 - Lower specific skill-tier match scores were noted, though they were outweighed by strong practical experience.

#2 — res2.pdf (score: 43.50, confidence: Medium)

- **Breakdown:**
 - required_skills [python]: 25.0/50.0 — required skills (4 total): 2 exact, 2 missing — credit-weighted 2.00/4 (exact/synonym=full credit, partial=half, implicit=quarter, missing=zero) -> 25.0/50.0 points
 - preferred_skills [python]: 2.5/20.0 — preferred skills (4 total): 3 missing, 1 partial — credit-weighted 0.50/4 (exact/synonym=full credit, partial=half, implicit=quarter, missing=zero) -> 2.5/20.0 points
 - cgpa [python]: 0.0/10.0 — CGPA not found on resume -> 0 points.
 - projects_experience [llm]: 14.0/15.0 — The candidate demonstrates strong backend skills through deployed ML/AI systems and relevant industry experience.
 - holistic_adjustment [llm]: 2.0/5.0 — The strong practical experience in deployed ML/AI systems significantly compensates for the missing CGPA and incomplete skill set.
- **Required skills:**
 - Node.js/Python/Java: **exact** (matched: Python)
 - REST API design: **missing** (matched: —)
 - SQL or NoSQL DB: **missing** (matched: —)
 - Git/GitHub: **exact** (matched: Git)
- **Preferred skills:**
 - Docker: **missing** (matched: —)
 - JWT/OAuth: **missing** (matched: —)
 - API docs: **missing** (matched: —)
 - Cloud basics: **partial** 🟡 (matched: Azure ML)
- **Why:**
 - Strong practical experience in deployed ML/AI systems and relevant industry experience was noted.
 - The candidate scored zero on CGPA as it was not found on the resume.
 - The strong practical experience helped compensate for the missing CGPA and incomplete skill set.

#3 — sample2.xml (score: 17.00, confidence: Medium)

- **Breakdown:**

- required_skills [python]: 0.0/50.0 — required skills (4 total): 4 missing — credit-weighted 0.00/4 (exact/synonym=full credit, partial=half, implicit=quarter, missing=zero) -> 0.0/50.0 points
- preferred_skills [python]: 0.0/20.0 — preferred skills (4 total): 4 missing — credit-weighted 0.00/4 (exact/synonym=full credit, partial=half, implicit=quarter, missing=zero) -> 0.0/20.0 points
- cgpa [python]: 10.0/10.0 — CGPA 8.4 meets minimum 6.5 -> full 10.0 points.
- projects_experience [llm]: 7.0/15.0 — The candidate shows relevant IoT experience, but lacks depth signals and breadth compared to the other candidates.
- holistic_adjustment [llm]: 0.0/5.0 — While the CGPA is excellent, the candidate scores zero on required and preferred backend skills, indicating a significant gap in technical knowledge.
- **Required skills:**
 - Node.js/Python/Java: **missing** (matched: —)
 - REST API design: **missing** (matched: —)
 - SQL or NoSQL DB: **missing** (matched: —)
 - Git/GitHub: **missing** (matched: —)
- **Preferred skills:**
 - Docker: **missing** (matched: —)
 - JWT/OAuth: **missing** (matched: —)
 - API docs: **missing** (matched: —)
 - Cloud basics: **missing** (matched: —)
- **Why:**
 - The candidate scored full points for CGPA, meeting the minimum requirement.
 - The candidate scored zero on both required and preferred backend skills due to four missing skills in each category.
 - The projects/experience were noted as relevant IoT experience but lacked depth and breadth compared to others.
- Anomaly: malformed_email:'rohit.verma@@bad-email'
- Anomaly: graduation_year_out_of_range:2042

Reserve

No candidates in reserve.

Excluded

unranked — sample3.unsupported (score: N/A, confidence: N/A)

- **Human review required**
- Anomaly: parse_failed:unsupported file extension: .unsupported

unranked — sample4_empty.txt (score: N/A, confidence: N/A)

- **Human review required**
- Anomaly: parse_failed:extracted text is empty

Database Developer — Shortlist (database_dev)

Slots: 3 | Cutoff: 40.0 | Evaluated: 5

Shortlist

#1 — sample1.txt (score: 44.75, confidence: Medium)

- **Breakdown:**
 - required_skills [python]: 18.75/50.0 — required skills (6 total): 1 exact, 5 implicit — credit-weighted 2.25/6 (exact/synonym=full credit, partial=half, implicit=quarter, missing=zero) -> 18.75/50.0 points
 - preferred_skills [python]: 5.0/20.0 — preferred skills (4 total): 1 exact, 3 missing — credit-weighted 1.00/4 (exact/synonym=full credit, partial=half, implicit=quarter, missing=zero) -> 5.0/20.0 points
 - cgpa [python]: 10.0/10.0 — CGPA 8.32 [normalized from percentage] meets minimum 6.0 -> full 10.0 points.
 - projects_experience [llm]: 11.0/15.0 — The candidate demonstrates strong backend and deployment skills, with the Chat App utilizing Redis for data tracking.
 - holistic_adjustment [llm]: 0.0/5.0 — The candidate demonstrates strong performance across skills, CGPA, and relevant project experience, aligning well with the role requirements.
- **Required skills:**
 - MySQL or PostgreSQL: **exact** (matched: PostgreSQL)
 - Schema design: **implicit** (matched: PostgreSQL)
 - Database normalisation: **implicit** (matched: PostgreSQL)
 - Query writing: **implicit** (matched: PostgreSQL)
 - Query optimisation: **implicit** (matched: PostgreSQL)
 - Basic indexing: **implicit** (matched: PostgreSQL)
- **Preferred skills:**
 - MongoDB or Redis: **exact** (matched: Redis)
 - Stored procedures: **missing** (matched: —)
 - Aggregation pipelines: **missing** (matched: —)
 - ERD design: **missing** (matched: —)
- **Why:**
 - The candidate achieved full points for CGPA, meeting the minimum requirement.
 - Skills were partially matched, with 1 exact and 5 implicit required skills identified.
 - Strong backend and deployment skills were noted, including the utilization of Redis in a project.

#2 — sample2.xml (score: 13.00, confidence: Medium)

- **Breakdown:**
 - required_skills [python]: 0.0/50.0 — required skills (6 total): 6 missing — credit-weighted 0.00/6 (exact/synonym=full credit, partial=half, implicit=quarter, missing=zero) -> 0.0/50.0 points
 - preferred_skills [python]: 0.0/20.0 — preferred skills (4 total): 4 missing — credit-weighted 0.00/4 (exact/synonym=full credit, partial=half, implicit=quarter, missing=zero) -> 0.0/20.0 points
 - cgpa [python]: 10.0/10.0 — CGPA 8.4 meets minimum 6.0 -> full 10.0 points.
 - projects_experience [llm]: 3.0/15.0 — The candidate only provides a single, low-complexity project without any professional experience or explicit database usage.
 - holistic_adjustment [llm]: 0.0/5.0 — The mechanical scoring accurately reflects the candidate's strong academic performance but weak technical fit for a Database Developer.
- **Required skills:**
 - MySQL or PostgreSQL: **missing** (matched: —)
 - Schema design: **missing** (matched: —)
 - Database normalisation: **missing** (matched: —)
 - Query writing: **missing** (matched: —)
 - Query optimisation: **missing** (matched: —)
 - Basic indexing: **missing** (matched: —)
- **Preferred skills:**
 - MongoDB or Redis: **missing** (matched: —)
 - Stored procedures: **missing** (matched: —)
 - Aggregation pipelines: **missing** (matched: —)
 - ERD design: **missing** (matched: —)
- **Why:**
 - The candidate scored full points for CGPA, demonstrating strong academic performance.
 - Zero points were awarded for required and preferred skills due to all skills being missing.
 - Project experience was low, consisting only of a single, low-complexity project without explicit database usage.
- Anomaly: malformed_email:'rohit.verma@@bad-email'
- Anomaly: graduation_year_out_of_range:2042

#3 — res2.pdf (score: 10.00, confidence: Medium)

- **Breakdown:**
 - required_skills [python]: 0.0/50.0 — required skills (6 total): 6 missing — credit-weighted 0.00/6 (exact/synonym=full credit, partial=half, implicit=quarter, missing=zero) -> 0.0/50.0 points
 - preferred_skills [python]: 0.0/20.0 — preferred skills (4 total): 4 missing — credit-weighted 0.00/4 (exact/synonym=full credit, partial=half, implicit=quarter, missing=zero) -> 0.0/20.0 points
 - cgpa [python]: 0.0/10.0 — CGPA not found on resume -> 0 points.
 - projects_experience [llm]: 10.0/15.0 — Strong deployment signals and professional experience offset the lack of explicit database focus in the projects.
 - holistic_adjustment [llm]: 0.0/5.0 — The mechanical scoring accurately reflects the conflict between strong professional experience and missing core database skills.
- **Required skills:**
 - MySQL or PostgreSQL: **missing** (matched: —)
 - Schema design: **missing** (matched: —)
 - Database normalisation: **missing** (matched: —)
 - Query writing: **missing** (matched: —)
 - Query optimisation: **missing** (matched: —)
 - Basic indexing: **missing** (matched: —)
- **Preferred skills:**
 - MongoDB or Redis: **missing** (matched: —)
 - Stored procedures: **missing** (matched: —)
 - Aggregation pipelines: **missing** (matched: —)
 - ERD design: **missing** (matched: —)
- **Why:**
 - Missing all required and preferred skills resulted in zero points for technical competencies.
 - Projects and experience were partially scored due to strong deployment signals and professional experience.
 - The holistic adjustment reflects the conflict between strong professional experience and missing core database skills.

Reserve

No candidates in reserve.

Excluded

unranked — sample3.unsupported (score: N/A, confidence: N/A)

- **Human review required**
- Anomaly: parse_failed:unsupported file extension: .unsupported

unranked — sample4_empty.txt (score: N/A, confidence: N/A)

- **Human review required**
- Anomaly: parse_failed:extracted text is empty

Frontend Developer — Shortlist (frontend_dev)

Slots: 8 | Cutoff: 40.0 | Evaluated: 5

Only 3/8 slots filled — fewer eligible candidates than slots.

Shortlist

#1 — sample1.txt (score: 54.00, confidence: Medium)

- **Breakdown:**
 - required_skills [python]: 25.0/50.0 — required skills (6 total): 3 partial, 1 synonym, 2 implicit — credit-weighted 3.00/6 (exact/synonym=full credit, partial=half, implicit=quarter, missing=zero) -> 25.0/50.0 points
 - preferred_skills [python]: 5.0/20.0 — preferred skills (4 total): 2 missing, 2 partial — credit-weighted 1.00/4 (exact/synonym=full credit, partial=half, implicit=quarter, missing=zero) -> 5.0/20.0 points
 - cgpa [python]: 10.0/10.0 — CGPA 8.32 [normalized from percentage] meets minimum 6.5 -> full 10.0 points.
 - projects_experience [llm]: 11.0/15.0 — The candidate shows strong full-stack capability with a relevant real-time chat application and professional software engineering experience.
 - holistic_adjustment [llm]: 3.0/5.0 — The strong project experience and high CGPA suggest practical competence that outweighs the lower score in the specific skill-tier matching.
- **Required skills:**
 - HTML: **partial** 🟡 (matched: React)
 - CSS: **partial** 🟡 (matched: React)
 - JavaScript: **partial** 🟡 (matched: React)
 - React.js or Next.js: **synonym** (matched: React)
 - Git/GitHub: **implicit** 🟡 (matched: Software Engineer, Acme Corp, Jun 2021 - Present)
 - REST API consumption: **implicit** 🟡 (matched: Resume Parser - Built a resume parsing tool using spaCy and FastAPI to extract structured fields from unstructured text.)
- **Preferred skills:**
 - TypeScript: **missing** (matched: —)
 - Redux/Zustand: **partial** 🟡 (matched: React)
 - Responsive design: **partial** 🟡 (matched: React)
 - Jest: **missing** (matched: —)
- **Why:**
 - Required skills were only partially met, with the breakdown showing 3 partial and 2 implicit skills.
 - The candidate shows strong full-stack capability, evidenced by a relevant real-time chat application and professional experience.
 - A positive holistic adjustment was applied because strong project experience and high CGPA outweigh lower skill-tier matching.

#2 — sample2.xml (score: 19.17, confidence: Medium)

- **Breakdown:**
 - required_skills [python]: 4.17/50.0 — required skills (6 total): 5 missing, 1 partial — credit-weighted 0.50/6 (exact/synonym=full credit, partial=half, implicit=quarter, missing=zero) -> 4.17/50.0 points
 - preferred_skills [python]: 0.0/20.0 — preferred skills (4 total): 4 missing — credit-weighted 0.00/4 (exact/synonym=full credit, partial=half, implicit=quarter, missing=zero) -> 0.0/20.0 points
 - cgpa [python]: 10.0/10.0 — CGPA 8.4 meets minimum 6.5 -> full 10.0 points.
 - projects_experience [llm]: 5.0/15.0 — The candidate has experience building an IoT system, but lacks professional experience and the projects are not focused on frontend web development.
 - holistic_adjustment [llm]: 0.0/5.0 — The candidate's low scores in required skills and projects are justified by the lack of frontend focus and relevant experience.
- **Required skills:**
 - HTML: **missing** (matched: —)
 - CSS: **missing** (matched: —)
 - JavaScript: **missing** (matched: —)
 - React.js or Next.js: **missing** (matched: —)
 - Git/GitHub: **missing** (matched: —)
 - REST API consumption: **partial** 🟡 (matched: IoT Weather Station Built a low-power IoT weather station using an ESP32 and MQTT.)
- **Preferred skills:**
 - TypeScript: **missing** (matched: —)
 - Redux/Zustand: **missing** (matched: —)
 - Responsive design: **missing** (matched: —)
 - Jest: **missing** (matched: —)
- **Why:**
 - The candidate achieved a full score for CGPA, meeting the minimum requirement.
 - The projects are limited to an IoT system and lack focus on frontend web development.
 - The low scores in required skills and projects are justified by the lack of frontend focus and relevant experience.

- Anomaly: malformed_email:'rohit.verma@@bad-email'
- Anomaly: graduation_year_out_of_range:2042

#3 — res2.pdf (score: 18.33, confidence: Medium)

- **Breakdown:**
 - required_skills [python]: 8.33/50.0 — required skills (6 total): 5 missing, 1 exact — credit-weighted 1.00/6 (exact/synonym=full credit, partial=half, implicit=quarter, missing=zero) -> 8.33/50.0 points
 - preferred_skills [python]: 0.0/20.0 — preferred skills (4 total): 4 missing — credit-weighted 0.00/4 (exact/synonym=full credit, partial=half, implicit=quarter, missing=zero) -> 0.0/20.0 points
 - cgpa [python]: 0.0/10.0 — CGPA not found on resume -> 0 points.
 - projects_experience [llm]: 10.0/15.0 — The candidate demonstrates strong technical depth and real-world experience, though the projects are heavily focused on AI/backend rather than frontend development.
 - holistic_adjustment [llm]: 0.0/5.0 — The breakdown accurately reflects a candidate whose experience is heavily focused on AI/backend rather than frontend development.
- **Required skills:**
 - HTML: **missing** (matched: —)
 - CSS: **missing** (matched: —)
 - JavaScript: **missing** (matched: —)
 - React.js or Next.js: **missing** (matched: —)
 - Git/GitHub: **exact** (matched: Git)
 - REST API consumption: **missing** (matched: —)
- **Preferred skills:**
 - TypeScript: **missing** (matched: —)
 - Redux/Zustand: **missing** (matched: —)
 - Responsive design: **missing** (matched: —)
 - Jest: **missing** (matched: —)
- **Why:**
 - The candidate's required skills score is low due to 5 missing skills.
 - Projects show strong technical depth, but the focus is heavily on AI/backend rather than frontend.
 - The holistic adjustment reflects the experience being heavily focused on AI/backend.

Reserve

No candidates in reserve.

Excluded

unranked — sample3.unsupported (score: N/A, confidence: N/A)

- **Human review required**
- Anomaly: parse_failed:unsupported file extension: .unsupported

unranked — sample4_empty.txt (score: N/A, confidence: N/A)

- **Human review required**
- Anomaly: parse_failed:extracted text is empty

Full Stack Developer — Shortlist (full_stack_dev)

Slots: 7 | Cutoff: 40.0 | Evaluated: 5

Only 3/7 slots filled — fewer eligible candidates than slots.

Shortlist

#1 — sample1.txt (score: 47.14, confidence: Medium)

- **Breakdown:**
 - required_skills [python]: 19.64/50.0 — required skills (7 total): 1 synonym, 3 partial, 1 implicit, 2 missing — credit-weighted 2.75/7 (exact/synonym=full credit, partial=half, implicit=quarter, missing=zero) -> 19.64/50.0 points
 - preferred_skills [python]: 2.5/20.0 — preferred skills (4 total): 3 missing, 1 partial — credit-weighted 0.50/4 (exact/synonym=full credit, partial=half, implicit=quarter, missing=zero) -> 2.5/20.0 points
 - cgpa [python]: 10.0/10.0 — CGPA 8.32 [normalized from percentage] meets minimum 7.0 -> full 10.0 points.
 - projects_experience [llm]: 14.0/15.0 — Projects showcase strong full-stack skills using modern technologies like FastAPI and real-time communication via WebSockets.
 - holistic_adjustment [llm]: 1.0/5.0 — The strong project description detailing modern full-stack technologies suggests a higher match than the low preferred skills score indicates.
- **Required skills:**
 - React.js: **synonym** (matched: React)
 - Node.js or equivalent: **partial** 🟡 (matched: FastAPI)
 - Database: **partial** 🟡 (matched: PostgreSQL)
 - REST API design: **implicit** 🟡 (matched: Resume Parser)
 - REST API consumption: **missing** (matched: —)
 - Git/GitHub: **missing** (matched: —)
 - Deployment basics: **partial** 🟡 (matched: Docker)
- **Preferred skills:**
 - Full deployed project: **missing** (matched: —)
 - Firebase or cloud DB: **partial** 🟡 (matched: AWS)
 - CI/CD: **missing** (matched: —)
 - GraphQL: **missing** (matched: —)
- **Why:**
 - The candidate achieved full points for CGPA, as 8.32 meets the minimum requirement.
 - Projects showcase strong full-stack skills using modern technologies like FastAPI and WebSockets.
 - The low preferred skills score was partially offset by the strong project description.

#2 — res2.pdf (score: 31.18, confidence: Medium)

- **Breakdown:**
 - required_skills [python]: 8.93/50.0 — required skills (7 total): 5 missing, 1 exact, 1 implicit — credit-weighted 1.25/7 (exact/synonym=full credit, partial=half, implicit=quarter, missing=zero) -> 8.93/50.0 points
 - preferred_skills [python]: 6.25/20.0 — preferred skills (4 total): 1 implicit, 2 partial, 1 missing — credit-weighted 1.25/4 (exact/synonym=full credit, partial=half, implicit=quarter, missing=zero) -> 6.25/20.0 points
 - cgpa [python]: 0.0/10.0 — CGPA not found on resume -> 0 points.
 - projects_experience [llm]: 14.0/15.0 — The candidate demonstrates strong relevance and depth through deployed AI/ML systems and a specialized chatbot project.
 - holistic_adjustment [llm]: 2.0/5.0 — The strong, deployed AI/ML projects suggest practical full-stack capability despite the low keyword skill scores.
- **Required skills:**
 - React.js: **missing** (matched: —)
 - Node.js or equivalent: **missing** (matched: —)
 - Database: **missing** (matched: —)
 - REST API design: **missing** (matched: —)
 - REST API consumption: **missing** (matched: —)
 - Git/GitHub: **exact** (matched: Git)
 - Deployment basics: **implicit** 🟡 (matched: Smart Attendance System)
- **Preferred skills:**
 - Full deployed project: **implicit** 🟡 (matched: Smart Attendance System)
 - Firebase or cloud DB: **partial** 🟡 (matched: Azure ML)
 - CI/CD: **partial** 🟡 (matched: GitHub Actions)
 - GraphQL: **missing** (matched: —)
- **Why:**
 - The candidate scored low on required skills due to 5 missing skills.
 - Projects are strong, demonstrating relevance through deployed AI/ML systems and a specialized chatbot.

- A holistic adjustment was applied, suggesting practical full-stack capability despite low keyword scores.

#3 — sample2.xml (score: 16.00, confidence: Medium)

- **Breakdown:**
 - required_skills [python]: 0.0/50.0 — required skills (7 total): 7 missing — credit-weighted 0.00/7 (exact/synonym=full credit, partial=half, implicit=quarter, missing=zero) -> 0.0/50.0 points
 - preferred_skills [python]: 0.0/20.0 — preferred skills (4 total): 4 missing — credit-weighted 0.00/4 (exact/synonym=full credit, partial=half, implicit=quarter, missing=zero) -> 0.0/20.0 points
 - cgpa [python]: 10.0/10.0 — CGPA 8.4 meets minimum 7.0 -> full 10.0 points.
 - projects_experience [llm]: 6.0/15.0 — The candidate demonstrates initiative with an IoT project but lacks depth and professional experience relevant to full-stack development.
 - holistic_adjustment [llm]: 0.0/5.0 — The perfect CGPA is offset by the lack of relevant full-stack skills and limited project depth.
- **Required skills:**
 - React.js: **missing** (matched: —)
 - Node.js or equivalent: **missing** (matched: —)
 - Database: **missing** (matched: —)
 - REST API design: **missing** (matched: —)
 - REST API consumption: **missing** (matched: —)
 - Git/GitHub: **missing** (matched: —)
 - Deployment basics: **missing** (matched: —)
- **Preferred skills:**
 - Full deployed project: **missing** (matched: —)
 - Firebase or cloud DB: **missing** (matched: —)
 - CI/CD: **missing** (matched: —)
 - GraphQL: **missing** (matched: —)
- **Why:**
 - The candidate scored zero on required skills because all 7 skills were missing.
 - The CGPA was perfect, achieving full points for meeting the minimum requirement.
 - The limited IoT project depth and lack of relevant full-stack experience resulted in a zero holistic adjustment.

Python NumPy OpenCV Convolutional Neural Networks (CNNs) TensorFlow
Keras Speech-to-text & NLP pipelines Model optimization (ONNX, quantization)
Git GitHub Actions Azure ML GCP Vertex AI spaCy Rasa

- Smart Attendance System
 - Face-recognition based attendance system using OpenCV and a custom-trained CNN, deployed on Raspberry Pi
- Chat Assistant for Healthcare FAQs
 - Built an intent-classification chatbot using spaCy and Rasa for a clinic's patient queries

AI Engineer at VisionEdge Labs

Jan 2022 - Present

Data Science Intern at Quantica Insights

May 2021 - Dec 2021

- Certification 1
Coursera - Deep Learning Specialization (Andrew Ng)
- Certification 2
NPTEL - Computer Vision
